EDUCATION

Lipa City, BatangasDe La Salle Lipa2023 – Expected June 2027

- **Major:** Bachelor of Science in Computer Science
- **Relevant Courses:** Artificial Intelligence, Data Science 1 & 2, Data Structures and Algorithms, Algorithms and Complexity, Object-Oriented Programming, Information Management, Software Engineering, Operating Systems

SKILLS

- **Languages:** Python, C#, R, SQL, JavaScript
- **AI / ML:** PyTorch, TensorFlow, scikit-learn, OpenAI API, Claude API
- **Data & Tools:** pandas, SQL, Git, Unity, Expo, Node.js

SOFTWARE PROJECTS

EcoQuest: Educational City-Building Simulation (Undergraduate Thesis)

- Developed a 3D grid-based city-building simulation in Unity (C#) where players solve real Philippine urban planning problems across seven scenarios.
- Designed an AI event director that uses rule-based probability models to set each month's hazard risks (typhoons, heat waves, fires, earthquakes, volcanic eruptions) based on the season and the player's city layout.
- Built procedural event generation on a seeded random number generator, making simulation outcomes reproducible and testable.
- Utilized: Unity, C#, Procedural Content Generation, Rule-Based AI, Automated Testing, Git

Library Management System (Android)

- Built a mobile library system with role-based access: librarians manage books, users, circulation, and overdue tracking; students register, log in, search, borrow, return, and view their history.
- Developed a built-in Node.js REST API with server-side validation, 14-day due dates, and automatic late-fee calculation.
- Utilized: Expo (React Native), JavaScript, Node.js, REST API

CERTIFICATIONS & SHORT COURSES

- **PyTorch Bootcamp** — OpenCV University (Certificate of Excellence, 100% grade), Oct 2026
- **Practical Applications of Machine Learning in MATLAB** — Universiti Teknologi PETRONAS (UTP), Malaysia, Apr 2026
- **Automated Vision in Industry: From Theory to Practical Applications** — UTP, Malaysia, Apr 2026
- **An Intro to Design Thinking** — UTP, Malaysia, Apr 2026
- **Introduction to R** — DataCamp, Apr 2026
- **Elements of AI** — University of Helsinki & MinnaLearn (2 ECTS credits), Oct 2025

LEADERSHIP

Chief Relations OfficerAWS DLSL2025 – 2026

- Organized technical events and activities for the student community.
- Reached out to and coordinated with companies and partner organizations to set up collaborations and joint events.

PERSONAL QUALITIES

- Hardworking and committed to delivering quality work
- Willing to learn and open to feedback
- Fast learner who quickly picks up new technologies and concepts
